## TECHNICAL SKILLS

HTML, CSS, JavaScript, React.js, Vite.js, TypeScript, Bootstrap and Figma.

## EXPERIENCE

### Freelance Web Developer

Niccolas Cente Developments | 2023 - Now

- I developed and maintained various accessible websites and responsive web applications using the most up-to-date and innovative technologies in the market, such as **TypeScript** with **React.js/Vite.js** and **Bootstrap**.
- With my solid knowledge of web design and user experience design (**UI/UX**), I develop prototypes for my clients using **Figma** before starting projects, to gather their opinions and receive feedback.

## PROJECTS

### LabAgenda - 2024

- *This project is an automation system for scheduling lab hours at the college where I study, Fundação Santo André. Professors access our software to book time slots in one of the college's laboratories.*
- *In this project, I was responsible for creating the front-end, developing the screen prototypes using **Figma**, and implementing the final interface with **React.js** and **Bootstrap**.*

### Receitas Iniciantes - 2024

- *Beginner Recipes is an online platform created to help people with neurodivergences, providing an accessible space for those starting to learn how to cook.*
- *I developed the screen prototypes using **Figma** and implemented the final interface with **React/Vite.js** and **Bootstrap**.*

### CarRental - 2024

- *A car rental website is an online platform that allows users to rent cars for personal or commercial use. The site provides an interface to search, compare, and book cars. I developed the screens using **TypeScript** with **React.js/Vite.js** and **Bootstrap** for the visuals.*
